Mr. Manton Marble on Florida.

Mr. Manton Marble, formerly the editor of the New York World, and one of the most intelligent, best informed and reliable men in the North, is now in Florida, and has written the following card, dated at Tallahassee, 20th inst., to the New York Herald:

The Governor of Florida contemplates a flagrant usurpation in order to consummate an act of the monstrous fraud, without which the vote of the State must be pronounced as it was cast for the Tilden electors. You believed, you have told your readers to believe, the whole country has believed, and rightly believed that under laws of Florida the returns for Presidential electors are for the exclusive consideration of the State Board of Canvassers. The country has been patient of their delay, for it was demanded and expected justice. Men of both parties have looked hither in numbers to witness a fair count by that board. Every member of the board has, in written replies to our urgency for an immediate beginning of the canvass, avowed his obligation and duty to canvass the returns, leaving open only the question of time. Governor Stearns himself, three days ago, in an interview with *Liverett Saltonstall*, of Massachusetts; D. W. Sellers, J. K. Reed, Samuel Gustine Thompson and G. W. Guthrie, of Pennsylvania, and the undersigned acknowledged the duty of the Board in due time to canvass returns. With this unquestioned belief which needed no support from such assurances clear proof has been taken throughout this State demonstrating the incontestable defeat of a corrupt and carpet bagging dynasty, which has begotten the people of Florida; demonstrating that the official record of county returns show the election of Tilden electors; demonstrating that a purgation of returns would quadruple the democratic majority. Is it possible for fair minded Northern men to conceive the desperation of the political gamblers who are now here putting at a stake a nation's honor or peace?

To candid men of both parties this statement of facts is submitted. Within the last twenty-four hours it has become apparent that the republican advisers controlling here have suggested that the Board of State Canvassers be wholly ignored and that Governor Stearns, a candidate for re-election, certify his own absolute power a result false in fact, so that representative electors may be foisted upon this State, thereby giving Hayes and Wheeler a *prima facie* title which it is contended the two Houses of Congress can't go behind or agree to question in order to give the contemplated exercise of unauthorized power a semblance of fairness.

The chairman of the democratic State committee was on Sunday served with a request, signed by Governor Stearns, which is now before me, for any written suggestions on the question whether the Governor should not ascertain the result of the vote for Presidential electors. As no statute or adjudication since the war has shown to confer any such power this request is merely the thin tissue devised to mask an infamous scheme that is here in flower now contriving to defraud the people of their choice for Governor and the people of the United States of their choice for President. Further to corroborate this evidence of the scheme now on foot, it should be known throughout the country, as it is well known here, that the Governor has declined to confer with his Attorney General, who has maintained not merely that the power is in the Board of canvass and not in the Governor, but that it is the duty of the Board to enter upon their duty at once, the time being near now. It should be known too, that Governor Stearns is consulting daily with those who have given him hints and are fetching him flimsy legal opinions and preparing his defense for the deceiving of the people of the United States. When this rascality is consummated it should be known that all the counties not yet reported are under democratic control, when, in fact, not one county in Florida is under anything but absolute and exclusive republican control, has here proffered publicly his faith in the Governor's single power, a power just now dug up out of a thirty-year old statute, superseded and repealed in every line by later legislation. A power just now perceived to be so convenient for the consummation of this appalling fraud, not upon Florida alone, but upon the people of the whole Union, should be known that this very thing which the venal crew who rule and riot here, Federal troops are conveniently moved to counties where the official records of the recent canvass, already black with insufficient frauds, may be safely reformed and lifted to adequate figures, matching it may be, certificates already falsified in the Governor's office. I cannot risk committing to the telegraph the measures adopted to frustrate this desperate scheme of desperate men, but the indignation of the Northern republicans should block their first steps. What a delusion is the invitation of President Grant to "fair men of both parties" to come hither and witness a fair count, and how well the muskets and the cannon of the Federal Government are played to prelude and foil that honest supervision.

I am now manufacturing a good and cheap PAINT, of several colors, the body of which is equal to Lead and Oil, which for its roots, barns, stables, fences, &c., will be found very suitable as well as economical, and an improvement over other cheap mixed Paints now in the market. For brick walls with a northern exposure it will act as a preventive to dampness. For iron it makes a solid and lasting coating, impervious to moisture and a preventive of rust. Being of various shades of color, the corners and trimmings can be painted to suit. This Paint has been used by one railroad company and by many of the farmers in this vicinity, and is highly recommended by all who have tried it. Price, single gallon, 75c. 10 gallons for per gal. 1 lb. or 40 gallons, 90c per gal. Call and examine samples at 85 King st., under Saxeport Hall.
